OneCard is your membership, loyalty and EFTPOS card in one

$ Drive revenue by including external merchants in your loyalty program using their existing EFTPOS terminal

🎁   Allows patrons to choose their own rewards at any EFTPOS accepting merchant

Personalise loyalty cards for your club or venue

Ability for members to transfer points to EFTPOS purchase value on loyalty cards, therefore increasing patron retention and acquisition

✓   Ability to integrate with any gaming provider and work in tandem with cashless gaming solutions

ONECARD
EFTPOS and loyalty in one
eftpos

ONECARD

OneCard for your Patrons

Leveraging your existing loyalty provider, our unique payments platform can integrate with any partner. This means no costly or painful loyalty migrations. With loyalty and EFTPOS in one card, your members can seamlessly:

- Transfer points to EFTPOS value on their own membership card
- Purchase at any EFTPOS terminal with their membership card to generate more loyalty points

OneCard for Your Affiliated Retailers

Local retailers can join your loyalty program. We credit points to members when they purchase with affiliated etail partners.

As the affiliated retailer program is ready to go using existing EFTPOS, no integration, expensive point of sale terminals or training required for your retail partners.

As this is of significant value to your retail partners, we have built an automated billing system that bills retailers for points issued on their behalf therefore generating revenue.

How OneCard Works

Affiliated Merchant Loyalty

1. Debit Purchase - $100
2. Process Debit $100
2. Credit remaining venue share of loyalty revenue from merchant $0.02 per point $2.00 total
