

It is with great pleasure that I recommend Next Payments as the supplier of Eftpos cash out for any gaming venue. They supplied the Cash Xpress Eftpos units in both Collingwood Football Club venues; Coach and Horses and The Club.

Collingwood Football Club formed a relationship with Next Payments in June 2014 when they installed cash recycling units into both venues. Due to the positive results the cash units added to the business it was an easy decision to use Next Payments again when the club required an Eftpos cash out solution.

The Cash Xpress units are quick and easy to use for both customers and staff which is exactly what our busy gaming venues demand.

As the General Manager of Gaming for the Collingwood Football Club venues, it is important for me to know the fundamentals of our gaming floor are in good hands. I can say with confidence that Next Payments meet all my expectations and more when it comes to product quality, innovation and customer service.

Additionally the Melbourne based help desk means my managers always have support no matter the time of day or night.

Danielle Burston
General Manager - Gaming Venues
Collingwood Football Club
