To Whom It May Concern

Our choice of Next Payments as the supplier for our ATM services at our 14 retail sites throughout Victoria was based on selecting a company that leads the field in understanding the ATM market. We realised that this company is managed by people that have the industry knowledge to be able to plan ahead and lead in the ATM industry. Next Payments equity partnership with the Macquarie Group gave us that extra confidence that we were not only dealing with a serious player in the market but they also have the capacity to continually expand their network and services.

Their premium ATM's provided the solutions we needed for offering faster transactions & screen advertising which gives Endeavour additional revenue. Our account manager has been very proactive in guiding us to take up opportunities which increased our overall income by 20 %. We can also verify that down time is at an absolute minimum (less than 2 %) and the response time with technical service and support has been excellent.

Endeavour has also experienced a 10% increase in transactions since installing the Hyosung 2700 model from NEXT which has received very favourable comments from our customers with regard to the speed it operates and the dynamic new style graphics.

Endeavour operates its business with the support of several key strategic partnerships. One of these is Next Payments who simply get on with the job of ensuring our company offers the best products and services associated with ATM's.

I would have no hesitation in recommending Next Payments as a provider for any like business

Yours Sincerely

Jeff Griffiths

Managing Director
